The results speak for themselves...

TEST STORE DATA 2023-2024

Test Store	Months Enrolled	Total LPCS*	Patients Enrolled	Coordinated Prescriptions*	Acquisition Avoided	Net Loss Avoided	Daily Prescription Volume	Geographic Region	Estimated Population (City)
1	3 months	1	60	253	\$188,388	\$7,421	750	Mid-Atlantic	1,800
2	10 months	2	148	922	\$658,578	\$31,360	500	Southeast	298,000
3	13 months	1	54	487	\$320,240	\$9,610	450	Southeast	6,900
4	15 months	1	70	559	\$405,574	\$16,361	275	Southeast	200

2024 PROJECTIONS

Test Store	Coordinated Prescriptions***	Acquisition Avoided	Net Loss Avoided
1	582	\$458,977	\$17,194
2	246	\$157,395	\$8,303
3	168	\$103,064	\$5,452
4	372	\$308,755	\$10,841

Test store data was collected from four Retailmymeds member stores located in four states in the Southeast and Mid-Atlantic regions of the country.

Projections were based on initial totals from January 1, 2024-February 29, 2024, if the program was simply maintained without growth.

*The LPCS is the primary pharmacy employee overseeing the program.

***Transferred prescriptions are based on 30-day fills.
